DENVER, Colorado – April 23, 2019

Liberty Global, the world's largest international TV and broadband provider, today announced a multi-year deal with Amazon to make the best content and viewing experience available to 4 million Virgin Media TV customers in the UK.

Virgin Media will be the first of Liberty Global's European operations to integrate the Amazon Prime Video app within its Ultra HD V6 set-top box.

The launch adds award-winning and critically-acclaimed Amazon Originals *The Marvelous Mrs. Maisel*, *Tom Clancy's Jack Ryan*, *The Grand Tour* and the highly-anticipated *Good Omens* starring Michael Sheen and David Tennant, as well as Premier League coverage offered by Prime Video to Virgin Media's extensive offering of broadcast and on demand programming across its multi-device TV service. Virgin Media customers will also have access to a range of Ultra High Definition (UHD) and HDR TV shows and movies.

The deal further enhances Liberty Global's strategy to combine the very best over-the-top online video apps and offerings from major streaming players, with its own world-class content and TV functionality, in a seamlessly-integrated experience. Customers can search, access and enjoy the top movies, series and sports they love with the convenience and flexibility of a single platform – powered by ultrafast broadband networks that enable high-quality, buffer-free viewing.
